

## UNVEX'24 is already more than 75% booked and the institutions are on board for the conferences

- National and international companies join the sponsorships.
- The event is concentrated on 4 and 5 June.

**Madrid, 12th of March** – UNVEX'24 has booked more than 75% of its exhibition space and has secured the participation of national and international organisations in its conference programme. UNVEX'24, the largest drone event organised in Spain, will take place on **4 and 5 June at the Fira de Barcelona**.

The UNVEX exhibition area is almost full capacity with national and international companies confirmed. Among the established exhibitors are **Airbus** and **Civil UAS Initiative**, also gold sponsors of this edition, **Avincis**, **General Atomics** and **Navantia**, silver sponsors, and **Grupo Oesía** and **Marine Instruments**, bronze sponsors.

Fira de Barcelona's Monjuic hall will host the 3,000 sq.m. exhibition and a further 1,000 sq.m. of conference and networking areas.

The Exhibition is completed by a Conference Programme divided into the main themes of interest to users and industry, with differentiated theatres for **Mobility**, **Security & Defence** and **Commercial**, as well as a dedicated theatre for industry to present their products to the assembled audience.

Most of the theatres are located in the exhibition area, which will benefit the attendance of a larger number of professionals.

The conference programme is being completed with the participation of representatives from national institutions such as the **General Secretariat for Transport and Mobility**, the **State Aviation Safety Agency**, **ENAIRE** and the **Polytechnic University of Catalonia**, as well as international organisations such as **Eurocontrol**, the **European Aviation Safety Agency** and the **European Defence Agency**.

### Dates

UNVEX'24 will be held on 4 and 5 June at the Fira de Barcelona, where both the Exhibition and Conferences shall run. On the afternoon of 5 June, the aerial demonstrations will take place at Sabadell airport.

The session, scheduled for the 6th, has been confirmed for the 5th, as the UNVEX demonstrations cannot be an impediment to the normal operation of the airport and will have to be held in the time slot where the airport ceases its activity.

### About UNVEX:

UNVEX is a comprehensive event born in 2010 that has demonstrated its ability to generate business in the eight editions held in Spain and the four held in Latin America. Designed and developed by Metalia Group, the largest provider of content in dual-use technology markets, including [www.infodron.es](http://www.infodron.es), the most widely read media in the drone sector. A Technical Committee selects the content of the conference programme, composed of qualified representatives. The exhibition is

the largest ever held in Spain, and its demonstrations, pioneering at the time, include all types of remotely piloted unmanned systems and C-UAS.
